

## BDT bewegt

BDT! We have been an innovative medium-sized family business for over 50 years and develop data storage solutions for leading IT companies worldwide. As a system solution provider for printing and automation technology with more than 50 active patents, BDT stands for a healthy work environment, fast decision-making, reliability, and technological competence. Our employees (m/f/d) are the most important part of our successful company. We are constantly looking for motivated team players to drive our company forward.

**Join our team now as:**

### **Technical Director (at our Mexico site) (m/f/d)**

#### **/// Your advantages:**

- **Flexibility:** Personal freedom for all our employees is important to us. Flexible working hours are therefore a matter of course for us, if possible and desired.
- **Internationality:** We operate in an international working environment and our products are used worldwide. Collaborate with top international companies.
- **Team spirit:** Utilize your agile mindset and communicate across departments.
- **Products:** Contribute your creativity and collaborate in new and further development of exciting products.
- **Personal development:** Develop yourself through cross-functional interaction and problem solving with top international companies.

## **BDT bewegt**

### **/// Your tasks:**

- Responsible for all technical matters related to the production environment at the Mexico (Guadalajara) site.
- Work closely with the local general manager and act as deputy.
- Responsible for the staff in the production area and the related organizational activities, such as scheduling, etc.
- Demonstrate responsibility for the concept, development, and process optimization of assembly and product integration.
- Ensure that all products ship on time with the highest quality.
- Collaborate with our sales team in the US to meet customer expectations.
- Form a link between customer production needs and our internal departments in Mexico and Germany, such as R&D, Supply Chain, Quality, and Compliance.

### **/// Your profile:**

- Technical degree
- Direct experience with customers and supporting key accounts
- History of cross-functional and international collaboration
- Very good knowledge of Spanish, English both written and spoken. German is desired.

**Do you want to move the future at BDT with us? Then become an active part of our team and move your future!**

**We look forward to receiving your application, preferably by e-mail.**
